

MT RAINIER

One of our favorite hikes and a MUST DO was the Skyline Loop. The best views come after the hardest climb. This couldn't be more true after hiking the Skyline Trail with 9 kids (ages 5-11) and 5 adults (the ages will remain hidden for my own safety!) This trail was the best of the best at Mt Rainier National Park and I highly recommend it!

Skyline Loop is the longest trail in Paradise at 5.5 miles and takes around 5 hours with 1,411 feet of elevation gain. Did you know the Paradise area averages 643" (53.6') of snow per year, making it one of the snowiest places on earth - literally!
